

eSignatures and events

Signable

Why events needs eSigning...

Events are always busy. Whether at a party, wedding, conference, exhibition or the like; a lot of paper is exchanged back forth in order to sort. Booking forms, invoices, confirmations - there's a lot of paper to follow up on!

eSignatures ensure whatever your role in events, everything is signed off ASAP.

We already have customers in these roles:

- Artist & DJ management
- Photographers
- Festival Organisers
- Hospitality Agents
- Theatre Workshops
- Magicians

So, how do eSignatures help?

- **Faster turnaround**

eSignatures reduce turn around time massively - around 80% quicker on average! This means claims can be completed and returned the same day by a customer. Allowing you to turn your focus away from the admin side, and back to improving customer satisfaction.

- **Unique deal terms**

As we've mentioned before; when closing a sale you need to ensure your client signs a document tailored to them. From their quoted prices to their dates and names. Amending these details on a template every time can get tedious. But! With our merge fields feature these variables can be added to your contract at the point of sending.

- **Keep your work mobile**

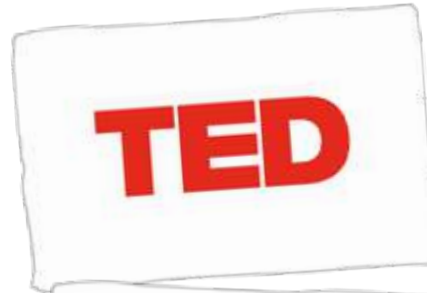

Many roles in events find themselves frequently out of the office, visiting potential and current customers, or of course, at events!. By storing all your documents in your Signable account, not only does this free space up in the office, but it also keeps info accessible wherever you are, at any time of day.

With eSignatures you can have these forms finished in minutes:

- Booking forms
- Wedding contracts
- Quotes
- Invoices

We're already helping these companies:

"Since taking on Signable, i've had great support with setting up my electronic signatures! The team take their time getting to know their clients and building up relationships - they have great attention to detail and always go the extra mile!"

- Austen Blakemore,
Austen Blakemore Photography

More about us... We are *Signable*

We get your documents signed faster.

Instead of posting or emailing documents for scanning, signers can now complete them in minutes for a fraction of the cost through Signable. By using a desktop, or any web-enabled device, contracts are signed quickly and securely today, not tomorrow.
