

# eSignatures and recruitment

Signable

## Why recruitment needs eSigning...

Recruitment is an ambitious, fast paced industry. It's no wonder that more and more recruitment agencies use technology to speed things up. And with a need to get contracts signed off ASAP, it's easy to see why eSignatures are increasingly used to close deals within minutes instead of hours. Or in some cases, even days.

Here's how our customers in recruitment are already using eSignatures...

With eSignatures you can have these forms finished in minutes:

- Client contracts
- Candidate registration forms
- Terms of business contracts
- Reference requests
- Time sheets

# So, how do eSignatures help?

- **Small changes are big time savers**

Not all contracts will be the same, and changing small details each time gets tedious. However, with Signable's merge fields feature, you can easily modify your contracts to ensure deal terms like a candidate's salary, contract start/end dates, and other inputs are kept unique for each person.

- **Time things correctly**

Managing the time spent nurturing relationships with candidates and clients is best done through timesheets. These often need to be signed off by multiple parties, along with the OK from a manager to keep payroll updated. eSignatures are an ideal solution for ensuring everyone involved signs off quickly, and can be accessed on-the-go if needed, hugely streamlining this process.

- **Close quicker!**

Avoid delays by automating your contracts and agreements. This saves you the time you would have spent on admin, inputting data. Signable, offers the option to set auto-reminders for your contracts that aren't completed, saving you having to chase your candidates.

- **Sign on the spot**

Need to register a prospective candidate who's perfect for a role? Now you won't have to wait for them to visit the office to register their details! eSignatures mean they can complete documents, and upload photo ID and CV files if necessary, within minutes. Leaving you to carry on with finding them roles to match their skills.
